

SATHYA RAJESH PK

Lead | Azure Data Engineering | BI & Analytics | AI-Powered Data Automation
Chennai, Tamil Nadu, India | +91-9597996996 | sathyarajeshpk17@gmail.com | linkedin.com/in/sathyarajeshpk

PROFESSIONAL SUMMARY

Versatile Data Engineer and Analyst with 12+ years of IT experience, including 4 years leading cloud-based data solutions at TransUnion. Combines deep expertise in Azure data engineering (ADF, Databricks, Synapse, ADLS Gen2) with strong analytical capability in Power BI, SQL, Python, and operational KPI reporting. Skilled at bridging the gap between raw data pipelines and business-ready insights – from architecting scalable ETL/ELT workflows and Delta Lake models to delivering executive dashboards and data storytelling. Proven track record of mentoring engineering teams, driving process efficiency, and delivering AI-powered data tools that accelerate business value.

CORE TECHNICAL COMPETENCIES

- **Data Engineering:** Azure Data Factory, Azure Databricks (PySpark, Spark SQL), Synapse Analytics, Azure Data Lake Storage Gen2, Delta Lake, ETL/ELT Pipeline Design, Data Modeling, Schema Design, Data Governance
- **Data Analysis & BI:** Power BI (DAX, Power Query), Apache Superset, Tableau, KPI Reporting, MIS Reporting, Operational Analytics, MTTA/MTTR Tracking
- **Programming & Scripting:** Python (Pandas, NumPy), SQL, PySpark, Spark SQL, Bash, Linux Administration
- **Cloud & DevOps:** Azure SQL Database, Azure Key Vault, Azure Monitor, Log Analytics, GCP Bigquery(exposure), Self-hosted Integration Runtime (SHIR).
- **Other Tools:** Splunk, Autosys, AB Initio GDE, Power Query, Power Automate, Microsoft Fabric, DBT

PROFESSIONAL EXPERIENCE

TransUnion Global Technology Center LLP, Chennai | *Lead* | Nov 2019 – Nov 2025

- Architected and deployed 10+ production-grade ETL/ELT pipelines using Azure Data Factory and Azure Databricks, processing millions of records daily with 99.5% SLA uptime.
- Led migration of 50+ TB of legacy data to Azure Data Lake Storage Gen2, achieving 30% cost reduction and 40% faster query performance.
- Implemented Delta Lake architecture with incremental load strategies (MERGE, UPSERT) for high-performance OLAP analytics and reporting.
- Built Power BI executive dashboards and automated MIS reports for KPI tracking, and operational performance, reducing manual reporting effort by ~60%.
- Tracked and reported operational KPIs including MTTA and MTTR using Splunk, Autosys, and Power BI, enabling data-driven SLA management and resource planning.
- Analyzed large operational datasets using SQL and Python (Pandas) to identify workload trends, incident patterns, and performance improvement opportunities.
- Established proactive pipeline monitoring using Azure Monitor and Log Analytics, reducing unplanned downtime and improving incident response efficiency.
- Mentored 20+ data engineers on PySpark, Azure best practices, and data engineering standards, improving team productivity by 25%.
- Collaborated with architecture, operations, and business stakeholders to deliver governed, compliant, and insight-ready data solutions.

Tata Consultancy Services (TCS), Chennai | *Senior Process Associate* | Jan 2018 – Nov 2019

- Monitored batch ETL workflows and validated operational data to ensure quality, reliability, and process stability.
- Optimized SQL queries and stored procedures, reducing average execution time by 20%.
- Investigated production pipeline failures and data processing errors, developing documentation to standardize resolution procedures.

Sutherland Global Services, Chennai | *Consultant* | Jan 2016 – Dec 2017

- Analyzed customer interaction and operational trend data to generate insights for service improvement recommendations.
- Supported analytics and reporting teams with data access, extraction, and insight delivery for business reviews.

Sitel India Pvt. Ltd., Chennai | *Senior Customer Service Representative* | May 2013 – Dec 2015

- Maintained 95% first-contact resolution rate across 400+ weekly interactions while tracking and improving key service performance metrics.

TECHNICAL PROJECTS & KEY ACHIEVEMENTS

- Power BI Executive Dashboard: Scaffolded a full Power BI executive dashboard with star schema data model, DAX measures, red/black executive theme, and synthetic data for client demonstration.
- AI-Powered NL2SQL Tool: Designed and deployed an AI application that converts natural language questions into SQL, PySpark, and Python code with automated chart generation using Claude API.
- HR Analytics Dashboard (Apache Superset): Built an analytics dashboard to analyze employee attrition, hiring trends, and workforce performance metrics.
- Incident Root Cause Analyzer: Developed an AI-assisted log analysis solution to automatically identify root causes of operational failures, accelerating incident investigation.

RECOGNITION & AWARDS

- Quarterly Best Performer Award – TransUnion (Feb 2024, Aug 2023, Nov 2022)
- Client Appreciation Award – Tata Consultancy Services for high-quality technical delivery
- Wall of Fame – Sitel India (3 consecutive quarters for outstanding performance)

LEADERSHIP & COMMUNITY

- Mentor – Foundation for Excellence (FFE): Guided college students on career development, data analytics learning paths, and internship preparation.

EDUCATION

Bachelor of Engineering (B.E.) – Electrical & Electronics Engineering

Anna University, Chennai | Graduated: Dec 2012
